

# CIHR STAGE

Strategic Training  
for Advanced  
Genetic Epidemiology

## Call for

# Applications

## Be a STAGE Fellow

If you are an enthusiastic and inquisitive PhD student, post-doctoral or clinical fellow, with interests in:

- Quantitative Methods
- Genetics and Biology
- and Population Health

**MAY 27, 2016**

**STAGE is for you!**

## Program Highlights

- Competitive stipends, travel and top-up awards
- Cross-training and co-mentorship in 3 disciplines: **Statistics, Genetics & Epidemiology**
- An integrative and cross-disciplinary curriculum including courses and journal club
- International speaker seminar series, networking events, and career development activities

## Training Environment

Builds on:

- Toronto's critical mass of genetic epidemiologists and statistical geneticists
- The collaborative team of biomedical scientists from the large *Toronto Academic Health Science Network*
- Three well-established and quantitatively strong University of Toronto graduate programs: **Epidemiology, Biostatistics & Statistics**

## Eligibility

- PhD students enrolled in Epidemiology, Biostatistics, or Statistics programs at UofT
- Exceptional PhD students enrolled in relevant biomedical programs at UofT, with a background in human genetics and evidence of training and strength in quantitative skills
- Postdoctoral fellows from relevant disciplines
- Faculty transitioning into the fields of genetic epidemiology or statistical genetics

**Canadian & international applicants are welcome!**
